Performance¹

	1 mth	3 mths	6 mths	12 mths	2 yrs (p.a.)	Since inception (p.a.)
Aurora Global Infrastructure Income Trust	7.07%	4.59%	5.92%	12.77%	5.16%	3.98%
UBS Global Infrastructure and Utilities 50/50 Index	5.01%	-0.93%	3.28%	15.56%	-4.18%	-8.62%

Investment objective

The Aurora Global Infrastructure Income Trust (the Trust) is an ASX listed investment trust that aims to generate income from an active strategy of selling call options over a portfolio of global listed infrastructure securities.

infrastructure sector. Prior to joining Long Tail, Nigel worked for over six years at Macquarie Bank Limited in investment banking, corporate finance, and funds management, nearly one year as the Chief Financial Officer of Envestra Limited, and two years as the Managing Director of Talon Infrastructure Pty Ltd.

Investment Strategy

The investment strategy seeks to capture income and growth from investing in some of the world's leading listed infrastructure entities.

The Investment Manager will use detailed fundamental analysis to select securities within the global infrastructure sector that may be anticipated to:

- provide a higher than average dividend yield over the medium term (including the influence of franking credits, special dividends and other financial restructuring); and
- provide the scope for additional income generation by the Trust writing call options on these securities.

The portfolio will generally hold 20 securities at any one time (either directly, or indirectly via an investment in a wholesale trust, and/or equity derivative instruments). The Trust may also use some gearing and at the Investment Manager's discretion, the portfolio may opportunistically:

- sell exchange traded or over the counter call options over each individual stock position in order to generate additional income; and
- purchase exchange traded or over the counter put options in order to provide some capital protection.

Investment Manager

Long Tail Asset Management Pty Ltd (AFSL 341474, "Long Tail") has been appointed as the Investment Manager to the Trust with responsibility to advise on the Trust's global investment selection. Long Tail is an Australian based fund manager. An Executive Director of Long Tail (Mr Nigel Trewartha, B.Ec (Honours), M.Comm) has over ten years experience in investment banking, corporate finance and the

31 Mar 10	\$0.0250	8.2%
30 Jun 10	\$0.0250	8.3%
Total	\$0.2832	

Investment Manager commentary

The Trust achieved a return of 7.07% for July compared to the UBS Global 50/50 Infrastructure and Utility Index ("Index") which returned 5.01% over the same period. In absolute terms, this is the Trust's best month of performance since inception. The Trust's Spanish utility positions made a strong contribution after a few months of detracting, and the UK water positions continued to deliver good returns.

Highlights for the month included:

- The Trust started to build a position in another transport infrastructure company, taking the exposure to transport infrastructure from 5% to 9%;
- A number of companies held by the Trust released half year results or trading updates. The results announced to date have been pleasing and the trading updates provided by the UK water companies suggest they are performing consistent with expectations; and
- The month ended on a high note when Electricite de France (EDF) announced the sale of its UK regulated electricity networks at a favourable price. This helped push the Trust's UK utility holdings higher (35% of the portfolio) as they trade at materially lower multiples than implied by the sale price. The Trust does not own EDF due to concerns over its ability to earn a reasonable return from its dominant, but politically sensitive, French retail electricity assets.

At the end of July the Trust was 77% invested in global infrastructure and utility stocks and 23% in cash and other assets. Call options have been sold over approximately 15% and put options purchased over approximately 30% of the underlying stock positions. The Trust has no net debt.

Five Stocks from the Portfolio

	Country	Sub-Sector	Weight
Severn Trent	UK	Water Utility	7.5%
Penlon	UK	Water Utility	6.1%
Enagas	Spain	Pipelines	5.3%

1. This number represents a cumulative return and assumes reinvestment of distributions. 2. The Trust intends to always distribute at least 2.0% of NAV per quarter regardless of Trust performance. This means that if the Trust has insufficient net income in a given quarter, investors may receive a partial (or full) return of capital. 3. Each historical distribution has been divided by seven to reflect the Unit split carried out in November 2009.
