The Directors of Aurora Funds Management Limited ("AFML") (ABN 69 092 626 885), (the "Responsible Entity") of HHY Fund ("the Trust"), present their annual report together with the consolidated financial statements of HHY Fund, consisting of the Trust and the entity it controlled at the end of, or during the financial year ended 30 June 2020.

Principal activities

The principal activities of the Trust during the financial year were investing the Trust monies in accordance with its investment objectives and guidelines as set out in the investment strategy and in accordance with the provisions of the Trust Constitution.

Keybridge Capital Limited ("Keybridge") was the Investment Manager of the Trust from 1 July 2016 until their termination on 18 July 2019. AFML replaced Keybridge as the Investment Manager effective 18 July 2019.

On 5 August 2019, WAM Capital Limited, WAM Active Limited and Botanical Nominees Pty Limited as trustee for the Wilson Asset Management Equity Fund, being members of the Trust holding at least 5% of the votes, requested that the Responsible Entity call and arrange to hold a meeting of the members of the Trust to consider and vote on the following resolutions:

- To consider and, if thought fit, pass an ordinary resolution:
 "That Aurora Funds Management Limited (ABN 69 092 626 885) be removed as the responsible entity of HHY Fund (ASRN 112 579 129)"
- To consider and, if thought fit, pass an ordinary resolution:
 "Subject to resolution 1 being passed, Primary Securities Ltd (ABN 96 089 812 635) (AFSL 224107) be appointed as the responsible entity of HHY Fund (ASRN 112 579 129)"

The meeting was held on 12 September 2019 and both resolutions were not passed.

On 28 November 2019, a loan of \$350,000 was provided by HHY Fund to RNY Australia Operating Company LLC ("RAOC") which matures on 28 November 2022. The annual interest rate of 12% is calculated on the principal drawn down only. At the date of this agreement, there is no Guarantor. RNY Property Trust owns 100% of RNY Australia LPT Corp, which in turn owns 75% of RNY Australia Operating Company LLC.

On 20 December 2019, the intention to commence an on-market buy-back for up to 10% of the Trust's issued capital of approximately 8.1 million units over the next 12 months was announced.

On 25 February 2020, the Trust announced that it was undertaking a 1-for-1 non-renounceable entitlement offer to raise up to \$3.25 million ("Entitlement Offer"). On 16 March 2020 the Trust announced the cancellation of the Entitlement Offer due to the global market volatility associated with COVID-19.

The Trust did not have any employees during the year.

The Trust is currently listed on the Australian Securities Exchange (ASX: HHY). The securities of the Trust have been suspended from quotation since 27 February 2020. AFML has been working with the ASX to have the suspension lifted.

There were no significant changes in the nature of the Trust's activities during the year.

Directors

The following persons held office as directors of Aurora Funds Management Limited during the year and up to the date of this report, unless otherwise stated:

John Patton Victor Siciliano Anthony Hartnell AM

Units on issue

	2020	2019
At 30 June	81,008,608	81,153,538

Review and results of operations

During the year, the Trust continued to invest in accordance with the target asset allocations as set out in the governing documents of the Trust and in accordance with the provisions of the Trust Constitution and Trust updates announced on the ASX.

In March 2020, the World Health Organisation declared the outbreak of a novel coronavirus (COVID – 19) as a pandemic, which continues to spread globally. The spread of COVID-19 has caused significant volatility in Australian and international markets. There is considerable uncertainty regarding the breadth and duration of the business disruptions related to COVID-19. The Trust continues to monitor the performance of its investments closely, and in-particular the loan receivable from RNY Australia Operating Company LLC ("RAOC") . RAOC has specific exposure to the United States Commercial Property Market. The underlying five (5) US commercial properties held by RNY Property Trust ("RNY") were reassessed by independent third party valuation experts at 30 June 2020, noting no decline in valuation. RNY owns 100% of RNY Australia LPT Corp, which in turn owns 75% of RAOC.

Financial results for the year

	2020	2019
	Ф	-
Operating profit/(loss) before finance costs attributable to unitholders	(283,118)	(2,560,609)
Distributions paid and payable	-	-
Distribution (cents per unit) 30 September	-	-
Distribution (cents per unit) 31 December	-	-
Distribution (cents per unit) 31 March	-	-
Distribution (cents per unit) 30 June	_	_

Financial position

Net Tangible Assets ("NTA") per unit as disclosed to the ASX are shown as follows:

	2020	2019
	\$	\$
At 30 June	0.0490	0.0524
High during period	0.0578	0.1020
Low during period	0.0315	0.0524

Based on the audited financial statements of the Trust for the year ended 30 June 2020, the NTA at 30 June 2020 is \$0.049 per unit.

Reconciliation of net assets for unit pricing and financial reporting purposes

The key differences between net assets for unit pricing purposes and net assets as reported in the financial statements prepared under Accounting Australian Standards are outlined below:

	2020	2019
	\$	\$
Net assets for unit pricing purposes	3,971,195	4,248,966
Difference between net assets for unit pricing purposes and bid/ask price		
held at fair value through profit or loss	-	-
Other adjustments	(57)	11,275
Nets assets under Australian Accounting Standards	3,971,138	4,260,241

Information on Underlying Performance

The performance of the Trust is subject to the performance of the Trust's underlying investment portfolio. There has been no change to the investment strategy of the Trust during the year, and the Trust continues to invest in accordance with target asset allocations as set out in the governing documents of the Trust and in accordance with the provisions of the Trust Constitution and any Trust updates on the ASX.

Strategy and Future Outlook

The Trust continues to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Trust and in accordance with the provisions of the Trust Constitution.

The results of the Trust's operations will be affected by a number of factors, including the performance of investment markets in which the Trust invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Further information on likely developments in the operations of the Trust and the expected results of those operations have not been included in this report because the Responsible Entity believes it would be likely to result in unreasonable prejudice to the Trust.

Significant changes in state of affairs

The Investment Management Agreement with Keybridge Capital Limited was terminated, effective from 18 July 2019.

The securities of the Trust have been suspended from quotation on the ASX since 27 February 2020. AFML has been working with the ASX to have the suspension lifted. The Directors expect that the entity will commence trading soon after the lodgement of the accompanying financial report.

In the opinion of the Directors, other than the matters already referred to in this report, there were no significant changes in the state of affairs of the Trust that occurred during the year.

Matters subsequent to the end of the financial year

On 1 October 2020 a loan of \$780,000 was provided by the Trust to RNY Australia Operating Company LLC ("RAOC") which matures on 1 October 2023. The annual interest rate of 15% is calculated on the principal drawn down only. There is no Guarantor under the loan agreement.

On 6 October 2020 Huntley Management Limited ("Huntley"), as responsible entity for RNY, announced that:

- the Amended and Restated Senior Loan Agreement ("Loan Agreement") with its US lender, ACORE Capital ("Lender"), has been executed, and
- Huntley is finalising the documentation for its previously announced 1:1 Non-Renounceable Rights Issue, and will
 provide unitholders with its proposed timetable after the closure of the off-market all scrip takeover bid for RNY by
 Keybridge Capital Limited, which will close at 7:00pm on Monday 16 November 2020.

Other than the changes mentioned above, no other matters or circumstances have arisen since 30 June 2020 that have significantly affected, or may significantly affect:

- (i) the operations of the Trust in future financial years, or
- (ii) the results of those operations in future financial years, or
- (iii) the state of affairs of the Trust in future financial years.

Indemnity and insurance of Aurora Funds Management Limited

No insurance premiums have been paid for out of the assets of the Trust in relation to insurance cover provided to either the officers of Aurora Funds Management Limited or the auditors of the Trust. So long as the officers of Aurora Funds Management Limited act in accordance with the Trust Constitution and the Law, the officers remain indemnified out of the assets of the Trust against losses incurred while acting on behalf of the Trust.

Indemnity of auditors

The auditors of the Trust are in no way indemnified out of the assets of the Trust.

Cost recovery and interests held in the Trust by the Responsible Entity or its associates

Costs recovered by the Responsible Entity and its associates out of Trust property during the year are disclosed in the Statement of Profit or Loss and Other Comprehensive Income.

No fees were paid out of Trust property to the Directors of the Responsible Entity during the year.

The number of interests in the Trust held by the Responsible Entity or its associates as at the end of the financial year are disclosed in Note 15 to the financial statements.

Interests in the Trust

The movement in units on issue in the Trust during the year is disclosed in Note 12 of the financial statements.

The values of the Trust's assets and liabilities are disclosed in the Statement of Financial Position and derived using the basis set out in Note 9 to Note 11 of the financial statements.

Environmental regulation

The operations of the Trust are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

Information on directors

The following persons were Directors of the Responsible Entity during the whole or part of the year and up to the date of this report.

Name: John Patton Title: **Managing Director**

Qualifications: Bachelor of Economics (Accounting), Chartered Accountant, Graduate Diploma in

Applied Finance and Investment

John was appointed as Managing Director of Aurora Funds Management Limited on Experience and expertise:

> 30 June 2016. John was previously a partner with Ernst & Young in the Transactions Advisory Services division and has over 25 years of professional services and industry experience. John has extensive corporate finance credentials, having been involved in over 250 corporate transactions, including mergers & acquisitions, structuring, debt & equity raisings, IPO's, management buy-outs, valuations, due diligence, financial

modelling, restructuring and corporate advisory.

Other current directorships: Metgasco Ltd

Keybridge Capital Limited (retired 21 January 2020). John Patton currently holds the Former directorships (in the

position of Company Secretary of Keybridge Capital Limited. last 3 years):

Special responsibilities: Managing Director, Member of Compliance Committee

Interests in units: None

Name: **Victor Siciliano** Title: **Executive Director**

Qualifications: Bachelor of Business (Banking & Finance) and Master of Applied Finance

(Investment Management) and is RG146 compliant.

Victor was appointed as Executive Director of Aurora Funds Management Limited on Experience and expertise:

9 January 2018. Victor has over 10 years' equity market experience, most recently as portfolio manager of the HHY Fund at Keybridge Capital Limited. Prior to this, Victor was employed as an assistant portfolio manager at boutique fund manager Sterling

Equity and as an investment advisor at Macquarie Group.

Note 1. General information

These consolidated financial statements cover HHY Fund (the "Trust") as an individual entity. The Trust commenced operations on 19 January 2005, and is domiciled in Australia.

The Responsible Entity of the Trust is Aurora Funds Management Limited (the "Responsible Entity"). The Responsible Entity's registered office is Suite 613, Level 6, 370 St Kilda Road, Melbourne VIC 3004. The financial statements are presented in Australian currency.

The Investment Manager of the Trust is Aurora Funds Management Limited.

On 31 July 2007, HHY International Holdings 1 Pty Ltd was incorporated in Australia as a company limited by shares. It has been 100% owned since the date of incorporation by the Trust.

It is recommended that these financial statements are considered together with ASX announcements and in accordance with the provisions of the governing documents of the Trust, and any public announcements made by the Trust during the year ended 30 June 2020 in accordance with the continuous disclosure obligations arising under the *Corporations Act 2001* and ASX listing rules.

The principal activities of the Trust during the financial year were investing the Trust monies in accordance with its investment objectives and guidelines as set out in the investment strategy and in accordance with the provisions of the Trust Constitution.

The consolidated financial statements were authorised for issue by the directors of the Responsible Entity as at the date of the directors' report. The Directors of the Responsible Entity have the power to amend and reissue the financial statements.

Note 2. Adoption of new and revised Accounting Standards

New, revised or amending Accounting Standards and Interpretations adopted

The Trust has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. There were no new, revised or amending Accounting Standards and Interpretations that were applicable and had a material impact.

The Trust has adopted AASB 16 Leases, however the impact is not material as the Trust has not entered into any leases as lessee which expire more than twelve months after 30 June 2020.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Note 3. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out either in the respective notes or below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the *Corporations Act 2001*, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Note 3. Significant accounting policies (continued)

Basis of preparation (continued)

The financial statements have been prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

The Consolidated Statement of Financial Position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets and net assets attributable to unitholders. The amount expected to be recovered or settled within twelve months after the end of each reporting period cannot be reliably determined.

Basis of consolidation

The consolidated financial statements incorporate the assets and liabilities of the subsidiary of the Trust as at 30 June 2020 and the results of the subsidiary for the year then ended. The Trust and its subsidiary together are referred to in this financial report as the Group or the consolidated entity.

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

All transactions (including gains and losses) and balances between entities in the consolidated group are eliminated.

Parent entity financial information

The financial information for the Trust, as disclosed in Note 18, has been prepared on the same basis as the consolidated financial statements.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Trust's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 4.

Receivables

The Trust recognizes an allowance for Expected Credit Losses (ECLs) for all receivables. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Trust expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Loan receivables are measured initially at fair value plus transaction costs and subsequently amortised using the effective interest rate method, less expected credit losses (ECLs) if any. AASB 9's impairment requirements use more forward looking information to recognize ECLs – the 'expected credit losses model'. Instruments within the scope of the new requirements included loans and other debt-type financial assets measured at amortised cost, and trade receivables.

The Trust considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

• financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk ('Stage 1') and

Note 3. Significant accounting policies (continued)

Receivables (continued)

• financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low ('Stage 2').

'Stage 3' would cover financial assets that have objective evidence of impairment at the reporting date.

'12-month expected credit losses' are recognised for the first category while 'lifetime expected credit losses' are recognised for the second category.

Measurement of the expected credit losses is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

Other receivables may include amounts for dividends, interest, trust distributions and securities sold where settlement has not yet occurred. Dividends and trust distributions are accrued when the right to receive payment is established. Interest is accrued at the end of each reporting period from the time of last payment. Amounts are generally due for settlement within 30 days of being recorded as receivables. For other receivables, the Trust applies a simplified approach in calculating ECLs. Therefore, the Trust does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date.

The loan of \$350,000 provided by the Trust to RNY Australia Operating Company LLC ("RAOC") has been assessed as Stage 1 as it is not considered to have deteriorated significantly in quality since initial recognition and has a low credit risk.

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial assets - initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at either amortised cost or at fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and business model. With the exception of trade receivables that do not contain a significant financing component or for which the Trust has applied the practical expedient, the Trust initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Trust has applied the practical expedient are measured at the transaction price.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are 'solely payments of principal and interest ("SPPI")' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Trust commits to purchase or sell the asset.

(ii) Financial assets - subsequent measurement

For purposes of subsequent measurement, financial assets are classified in two categories:

• Financial assets at amortised cost (debt instruments). The Trust's financial assets at amortised cost consists of trade receivables and loan to RNY Australia Operating Company LLC.

Note 3. Significant accounting policies (continued)

Financial instruments (continued)

- (ii) Financial assets subsequent measurement (continued)
- Financial assets at fair value through profit or loss. The Trust's financial assets at fair value through profit or loss consists of listed equity investments and contracts for difference.

Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. Trades are recorded on trade date, and for equities normally settled within two business days. For amounts due from brokers, the Trust applies a simplified approach in calculating Expected Credit Losses (ECLs). Therefore, the Trust does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date.

Payables

All expenses, including Responsible Entity's fees, Management fees, audit and tax fees and other operating expenses are recognised in the Consolidated Statement of Profit or Loss and Other Comprehensive Income on an accrual basis. Any unpaid amount is recognised in the Consolidated Statement of Financial Position as other payables.

Investment income

Interest income is recognised in profit or loss for all financial instruments that are not held at fair value through profit or loss using the effective interest method. Interest income on assets held at fair value through profit or loss is included in the net gains/(losses) on financial instruments. Other changes in fair value for such instruments are recorded in accordance with the policies described in Note 6.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or liability. When calculating the effective interest rate, the Trust estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses. The calculation includes all fees paid or received between the parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts when it is probable that the economic benefit will flow to the Trust and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Dividend income is recognised on the ex-dividend date, inclusive of any related foreign withholding tax. The Trust currently incurs withholding tax imposed by certain countries on investment income. Such income is recorded net of withholding tax in the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

Dividends declared on securities sold short are recorded as a dividend expense on the ex-dividend date. Trust distributions are recognised on an entitlements basis.

Expenses

All expenses, including Management fees, recoverable costs of the Responsible Entity, audit and tax fees and other operating expenses are recognised in the Consolidated Statement of Profit or Loss and Other Comprehensive Income on an accrual basis.

Note 3. Significant accounting policies (continued)

Goods and Services Tax ("GST")

The GST incurred on the costs of various services provided to the Trust by third parties, have been passed onto the Trust. The Trust qualifies for Reduced Input Tax Credits ("RITCs") at a rate of 55% or 75%; hence management fees and other expenses have been recognised in the Statement of Profit or Loss and Other Comprehensive Income net of the amount of GST recoverable from the Australian Taxation Office ("ATO"). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the Statement of Financial Position. Cash flows relating to GST are included in the statement of cash flows on a net basis.

Income tax

Under current legislation, the Trust is not subject to income tax as unitholders are presently entitled to the income of the Trust. The benefit of imputation credits and foreign tax paid is passed on to unitholders.

Foreign currency translation

(i) Functional and presentation currency

Items included in the Trust's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Trust competes for funds and is regulated. The Australian dollar is also the Trust's presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates, of monetary assets and liabilities denominated in foreign currencies are recognised in the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported in the Consolidated Statement of Profit or Loss and Other Comprehensive Income on a net basis within net gains/(losses) on financial instruments held at fair value through profit or loss.

Note 4. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements require management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

For the majority of the Trust's financial instruments, quoted market prices are readily available. However, certain financial instruments, for example, unquoted securities are fair valued using valuation techniques. Where valuation techniques are used to determine fair values, they are validated and periodically reviewed by experienced personnel of the Responsible Entity, independent of the team that created them. For more information on how fair value is calculated please see Note 7 to the financial statements.

The carrying amount of loan receivables are assessed at each reporting date, and require the Trust to make determinations as to the likelihood of recovery.

For certain other financial instruments, including payables, the carrying amounts approximate fair value due to the immediate or short-term nature of these financial instruments.

Note 5. Operating segments

Identification of reportable operating segments

The Trust comprised the single business segment which operates solely in the business of investment management within Australia. While the Trust operates within Australia only (the geographical segment), the Trust may have asset exposures in different countries and across different industries.

Operating segment information

As the Trust operates in a single operating segment, these financial statements represent the required financial information of that segment.

Accounting policy for operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM') which has been identified as the Board of Directors. The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

Note 6. Financial Instruments

Capital risk management

The Trust considers its net assets attributable to unitholders as capital, notwithstanding net assets attributable to unitholders are classified as a liability.

Financial risk management

The Trust's activities expose it to a variety of financial risks which is reflected in the Trust's net gains/losses: market risk (including price risk, currency risk and interest rate risk), credit risk and liquidity risk.

The Trust's overall risk management program focusses on ensuring compliance with the Trust's Investment Strategy and seeks to maximize the returns derived for the level of risk to which the Trust is exposed. Financial risk management is carried out by the investment management department of the Responsible Entity under policies approved by the Board of Directors of the Responsible Entity ("the Board").

The Trust uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, ageing analysis for credit risk and beta analysis in respect of investment portfolios to determine market risk.

(a) Market risk

(i) Price risk

Price risk is the risk that the value of the Trust's investment portfolio will fluctuate as a result of changes in market prices. This risk is managed by the Responsible Entity through ensuring that all activities are transacted in accordance with mandates, overall investment strategy and within approved limits. Market price risk analysis is conducted regularly by the investment manager on a total portfolio basis, which includes the effect of any derivatives.

The Trust is exposed to equity securities and derivative securities price risk. This arises from investments held by the Trust for which prices in the future are uncertain. Investments are classified in the Consolidated Statement of Financial Position as at fair value through profit or loss. All securities investments present a risk of loss of capital. Except for equities sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses from equities sold short can be unlimited.

A sensitivity analysis was performed showing how the effect of a 10% increase and a 10% decrease in market prices would have increased/decreased the impact on operation profit/net assets attributable to unitholders as at 30 June 2020. The results of this analysis are disclosed in Note 6(b).

Note 6. Financial Instruments (continued)

(a) Market risk (continued)

(ii) Foreign exchange risk

Foreign exchange risk arises as the value of monetary securities denominated in other currencies will fluctuate due to changes in exchange rates.

The Trust has no direct exposure to foreign currency and no sensitivity analysis was performed.

(iii) Interest rate risk

The Trust is exposed to interest rate risk on financial instruments with variable interest rates.

The Trust's interest-bearing financial assets expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The risk is measured using sensitivity analysis. The only financial assets held by the Trust subject to interest rate risk are cash and cash equivalents.

The Trust has direct exposure to interest rate changes on the valuation and cash flows of its interest-bearing assets and liabilities. However, it may also be indirectly affected by the impact of interest rate changes on the earnings of certain companies in which the Trust invests and impact on the valuation of certain assets that use interest rates as input in their valuation model. Therefore, the sensitivity analysis may not fully indicate the total effect on the Trust's net assets attributable to unitholders of future movements in interest rates.

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. There is no significant direct interest rate risk in the Trust as the Trust does not hold interest rate sensitive financial instruments. The interest rates on deposits at bank and on bank overdrafts are both rates referenced to RBA cash rate.

A sensitivity analysis was performed showing how the effect of a 100 basis point increase and a 100 basis point decrease in interest rates on cash and cash equivalents would have increased/decreased the impact on operating profit/net assets attributable to unitholders as at 30 June 2020. The results of this analysis are disclosed in Note 6(b).

The table below summarises the Trust's exposure to interest rate risks. It includes the Trust's assets and liabilities at fair value, categorised by the earlier of contractual repricing or maturity dates.

	Floating interest	Fixed interest	Non interest	Total
30 June 2020	rate	rate	bearing	
Financial assets	AUD	AUD	AUD	AUD
Cash and cash equivalents/(bank overdraft)	371	-	-	371
Loan to RNY Australia Operating Company - Principal	-	350,000	-	350,000
Loan to RNY Australia Operating Company - Interest	-	-	24,683	24,683
Return of Capital from Yowie Group Limited	-	-	1,053,066	1,053,066
Other receivables	-	-	7,868	7,868
Financial assets held at fair value through profit or loss	-	-	2,602,076	2,602,076
Financial liabilities				
Other payables	-	-	(66,926)	(66,926)
Net exposure	371	350,000	3,620,767	3,971,138

Note 6. Financial Instruments (continued)

(a) Market risk (continued)

(iii) Interest rate risk (continued)

	Floating interest	Fixed interest	Non interest	Total
30 June 2019	rate	rate	bearing	
Financial assets	AUD	AUD	AUD	AUD
Cash and cash equivalents/(bank overdraft)	37,860	-	-	37,860
Receivables	-	-	3,373	3,373
Financial assets held at fair value through profit or loss	-	-	4,284,630	4,284,630
Financial liabilities				
Other payables	-	-	(65,622)	(65,622)
Net exposure	37,860	-	4,222,381	4,260,241

(b) Price risk and Interest rate risk

The following table summarises the sensitivity of the Trust's operating profit and net assets attributable to unitholders to price risk and interest rate risk. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical levels of changes in interest rates, foreign exchange rates and historical market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of and/or correlation between the performance of the economies, markets and securities in which the Trust invests. As a result, historic variations in risk variables should not be used to predict future variations in the risk variables.

	Price F	Risk	Interest I	Rate Risk
	Impact on oper	Impact on operating profit/net assets attributable to unithol		
		unitholders		
	-10%	10%	-100 bps	+100 bps
	\$	\$	\$	\$
30 June 2020	(260,208)	260,208	(4)	4
30 June 2019	(428,463)	428,463	(379)	379

In determining the impact of an increase/decrease in net assets attributable to unitholders arising from market risk, the Responsible Entity has considered prior period and expected future movements of the portfolio information in order to determine a reasonably possible shift in assumptions.

(c) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Trust.

The main concentration of credit risk to which the Trust is exposed arises from cash and cash equivalents and amounts due from other receivables

Concentrations of credit risk are minimised primarily by:

- · ensuring counterparties, together with the respective credit limits, are approved; and
- ensuring transactions are undertaken with a large number of counterparties.

Note 6. Financial Instruments (continued)

(c) Credit risk (continued)

The Trust has a prime brokerage agreement with Interactive Brokers, the Trust's Prime Broker, and some of the Trust's assets will be pledged as collateral for amounts drawn under the overdraft facility. There was no overdraft position as at 30 June 2020 (2019: nil).

Certain assets of the Trust will be held by the Prime Broker in segregated accounts together with assets deposited by it on behalf of other customers of the Prime Broker. Such assets will not be mixed with the property of the Prime Broker and should not be available to third party creditors of the Prime Broker in the event of insolvency of the Prime Broker. However, the assets of the Trust held by the Prime Broker will be subject to a charge to secure the Trust's obligations to the Prime Broker.

The main concentration of credit risk to which the Trust is exposed arises from loans receivable.

The Trust has a material credit risk exposure to RNY Australia Operating Company LLC from whom a loan and interest are receivable at 30 June 2020.

The Trust has a credit risk exposure to the banks (Westpac and Interactive Brokers) that hold the Trust's cash assets at 30 June 2020.

An analysis of exposure by rating is set out in the table below:

	2020 \$	2019 \$
Rating		
AA (Westpac Bank)	199	156
BBB (Interactive Brokers)	172	37,704
BBB (RNY Australia Operating Company LLC)	374,683	-
Total	375,054	37,860

(i) Settlement of securities transactions

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered low, as delivery of securities sold is only made once the broker has received payment. Payment is made once purchase on the securities have been received by the broker. The trade will fail if either party fails to meet its obligations.

(ii) Cash and cash equivalents

The exposure to credit risk for cash and cash equivalents is considered low as all counterparties have a rating of BBB or higher.

In accordance with the Trust's Constitution, the investment manager monitors the Trust's credit position of a daily basis, and the Board of Directors reviews it on a quarterly basis.

(iii) Loans and interest receivable

The exposure to credit risk for loans and interest receivable is considered low given the net asset position of RNY Australia Operating Company LLC.

Note 6. Financial Instruments (continued)

(c) Credit risk (continued)

(iv) Other

The Trust is not materially exposed to credit risk on other financial assets.

The maximum exposure to credit risk at the end of each reporting period is the carrying amount of the financial assets. None of these assets are impaired, nor past due.

(d) Liquidity risk

Liquidity risk is the risk that the Trust may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Trust primarily holds investments that are traded in an active market and can be readily disposed. Only a limited proportion of its assets are held in investments not actively traded on a stock exchange.

The majority of the Trust's listed securities are considered readily realisable, as they are listed on the Australian Securities Exchange.

Derivatives may also be used to improve the efficiency of implementing the investment strategy. Derivatives will only be held for a short period of time. The investment manager may not, without the prior written consent of the Responsible Entity, use derivatives or borrowings to gear the portfolio.

However, the Board does not envisage that the contractual maturity disclosed in the table below will be representative of the actual cash outflows, as holders of these instruments typically retain them for the medium to long term.

The table below analyses the Trust's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the end of the reporting period. The amounts in the table are the contractual undiscounted cash flows.

30 June 2020	Less than 1 month	1-6 months	6-12 months	1-2 years	Total
Liabilities					
Other payables	66,926	-	-	-	66,926
Net assets attributable to unitholders	3,971,138	-	-	-	3,971,138
Contractual cash flows (excluding gross settled derivatives)	4,038,064	-	-	-	4,038,064

30 June 2019	Less than 1 month	1-6 months	6-12 months	1-2 years	Total
Liabilities					
Other payables	65,622	-	-	-	65,622
Net assets attributable to unitholders	4,260,241	-	-	-	4,260,241
Contractual cash flows (excluding gross settled derivatives)	4,325,863	-	-	-	4,325,863

Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Note 7. Fair value measurement

The Trust measures and recognises the following assets and liabilities at fair value on a recurring basis through profit or loss (FVTPL).

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy:

Fair value hierarchy

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

(i) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Trust values its investments in accordance with the accounting policies within this note to the financial statements. For the majority of its investments, the Trust relies on information provided by independent pricing services for the valuation of its investments.

The quoted market price used for financial assets held by the Trust is the current bid price; the appropriate quoted market price for financial liabilities is the current asking price. When the Trust holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this bid or asking price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

(ii) Fair value in an inactive or unquoted market (level 2 and level 3)

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions. The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Trust holds.

Note 7. Fair value measurement (continued)

(ii) Fair value in an inactive or unquoted market (level 2 and level 3) (continued)

The following tables detail the Trust's assets and liabilities, measured or disclosed at fair value, using a three-level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

	Level 1	Level 2	Level 3	Total
30 June 2020	\$	\$	\$	\$
Financial assets				
Financial assets designated at fair value through				
profit or loss:				
Listed equity securities	2,426,742	-	-	2,426,742
Contracts for difference	175,334	-	-	175,334
Total financial assets	2,602,076	-	-	2,602,076
	Level 1	Level 2	Level 3	Total
30 June 2019	\$	\$	\$	\$
Financial assets				
Financial assets designated at fair value through				
profit or loss:				
Listed equity securities	3,364,077	695,668	-	4,059,745
Contracts for difference	224,886	-	-	224,886
Total financial assets	3,588,963	695,668	-	4,284,631

Transfers between levels

There was one transfer between levels for the year ended 30 June 2020, being the transfer of the investment in Copper Strike Limited from Level 2 to Level 1 (30 June 2019: one transfer).

Valuation techniques for fair value measurements

The carrying amounts of trade and other receivables and trade and other payables are assumed to approximate their fair values due to their short-term nature.

The fair value of financial liabilities is estimated by discounting the remaining contractual maturities at the current market interest rate that is available for similar financial liabilities.

The investment in Copper Strike Limited (ASX: CSE) was valued at 30 June 2020 using the most recent sale price on the ASX. The investment in Copper Strike Limited was valued at 30 June 2019 using the most recent sale price to Keybridge Capital Limited due to limited trading volumes on the ASX.

Note 7. Fair value measurement (continued)

Reconciliation of level 3 fair values

Financial assets measured using significant unobservable inputs (level 3) are shown below:

	2020 \$	2019 \$
Opening balance	_	322,377
Settlement of of financial asset held at fair value through profit or loss	-	(322,377)
Closing balance	-	-

Accounting policy for fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assume that the transaction will take place either: in the principal market; or in the absence of a principal market; in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified into three levels using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison where applicable, with external sources of data.

For certain other financial instruments, including amounts due from/to brokers and payables, the carrying amounts approximate fair value due to the immediate or short term nature of these financial instruments.

Note 8. Derivatives

In the normal course of business, the Trust enters into transactions in various derivative financial instruments with certain risks. A derivative is a financial instrument or other contract which is settled at a future date whose value changes in response to a change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

Derivative transactions include many different instruments, such as forwards, futures and options. Derivatives are considered to be part of the investment process and the use of derivatives is an essential part of the Trust portfolio management. Derivatives are not managed in isolation. Consequently, the use of derivatives is multifaceted and includes:

- · hedging to protect an asset or liability of the Trust against a fluctuation in market values or to reduce volatility.
- · a substitution for trading of physical securities.
- adjusting asset exposures within the parameters set in the investment strategy, and adjusting the duration of fixed interest portfolios or the weighted average maturity of cash portfolios.

While derivatives are used for trading purposes, they are not used to gear (leverage) a portfolio. Gearing a portfolio would occur if the level of exposure to the markets exceeds the underlying value of the Trust.

The Trust holds the following derivative instruments:

(a) Contracts for difference

A contract for differences ("CFD") is an arrangement made in financial derivatives trading where the differences in the settlement between the open and closing trade prices are cash-settled. There is no delivery of physical goods or securities with CFDs.

The Trust's derivative financial instruments at year end are detailed as follows:

		Fair va	alues
	Contractual/ notional	Assets	Liabilities
30 June 2020	\$	\$	\$
Contracts for difference	-	175,334	-

		Fair values	
	Contractual/ notional	Assets	Liabilities
30 June 2019	\$	\$	\$
Contracts for difference	-	224,886	-

Refer to Note 6 for further information on financial instruments.

Refer to Note 7 for further information on fair value measurement.

Note 9. Cash and cash equivalents

	2020 \$	2019 \$
Cash at bank	371	37,860
Total cash and cash equivalents	371	37,860

Accounting policy for cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in the Statement of Financial Position.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities in the Statement of Cash Flows, as movements in the fair value of these securities represent the Trust's main income generating activity.

Note 10. Receivables

	2020	2019
	\$	\$
Loan to RNY Australia Operating Company LLC - Principal	350,000	-
Loan to RNY Australia Operating Company LLC - Interest	24,683	-
Return of Capital from Yowie Group Limited	1,053,066	-
Other receivables	7,868	3,372
Total receivables	1,435,617	3,372

On 28 November 2019 a loan of \$350,000 was provided by the Trust to RNY Australia Operating Company LLC ("RAOC") which matures on 28 November 2022. The annual interest rate of 12% is calculated on the principal drawn down only. There is no Guarantor under the loan agreement. The spread of COVID-19 has caused considerable uncertainty, the breadth and duration of disruptions are ongoing. The Trust continues to monitor the performance of the loan receivable to RNY Australian Operating Company LLC ("RAOC"). RAOC has specific exposure to the United States Commercial Property Market. The underlying five (5) US commercial properties held by RNY Property Trust ("RNY") were reassessed by independent third party valuation experts at 30 June 2020, noting no decline in valuation. RNY owns 100% of RNY Australia LPT Corp, which in turn owns 75% of RAOC.

On 24 June 2020 the shareholders of Yowie Group Limited (ASX: YOW) approved a Return of Capital to shareholders of \$0.04 per share. The proceeds of the Return of Capital of \$1,053,065.72 were received by the Trust on 15 July 2020.

Note 11. Financial assets held at fair value through profit or loss

	2020 \$	2019 \$
		·
Designated at fair value through profit or loss		
Australian listed equity securities	2,426,103	4,057,052
Contracts for difference	175,333	224,886
International equity securities	640	2,693
Total designated at fair value through profit or loss	2,602,076	4,284,631
Total financial assets held at fair value through profit or loss	2,602,076	4,284,631

An overview of the risk exposure relating to financial assets held at fair value through profit or loss is included in Note 6.

Note 12. Net assets attributable to unitholders

Movements in the number of units and net assets attributable to unitholders during the year were as follows:

	2020	2019	2020	2019
	No.	No.	\$	\$
Opening balance	81,153,538	81,403,538	4,260,241	6,834,160
Buy backs	(144,930)	(250,000)	(5,985)	(13,310)
Increase/(decrease) in net assets attributable				
to unitholders	-	-	(283,118)	(2,560,609)
Closing balance	81,008,608	81,153,538	3,971,138	4,260,241

As stipulated within the Trust Constitution, each unit represents a right to an individual share in the Trust and does not extend to a right to the underlying assets of the Trust.

Note 13. Other operating expenses

	2020	2019
	\$	\$
Registry fees	19,907	15,581
Bank fees	190	52
ASX fees	2,558	26,225
Research fees	-	(19,851)
ASIC fees	1,507	1,737
Interest expense	10,399	17,125

Note 15. Related party transactions

Responsible Entity

The Responsible Entity of HHY Fund is Aurora Funds Management Limited.

Key management personnel unitholdings

As at 30 June 2020, Victor Siciliano holds a Direct Interest in 237,655 (2019: 237,655) units in the Trust. As at 30 June 2020, Victor Siciliano holds an Indirect Interest in 241,500 (2019: 241,500) units in the Trust via VFS Superannuation Fund.

As at 30 June 2020, Anthony Hartnell, Non-Executive Director, holds 360,369 (2019: 300,001) units in the Trust.

Key management personnel compensation

Key management personnel are paid by Aurora Funds Management Limited. Payments made from the Trust to Aurora Funds Management Limited do not include any amounts directly attributable to the compensation of key management personnel.

Related party unitholdings

Keybridge Capital Limited ("Keybridge") was terminated as Investment Manager of the Trust on 18 July 2019. Keybridge holds 25,238,986 units (30 June 2019: 25,238,986 units) in the Trust, the fair value of which is \$1,236,710 (30 June 2019: \$1,324,947). Distributions of \$Nil (30 June 2019: \$Nil) were paid/payable by the Trust to Keybridge.

Aurora Global Income Trust holds 12,543,419 units (30 June 2019: 12,543,419 units) in the Trust, the fair value of which is \$614,628 (30 June 2019: \$658,480). Distributions of \$Nil (30 June 2019: \$Nil) were paid/payable by the Trust to Aurora Global Income Trust.

The fair value of the unitholdings in the Trust held by related parties, being \$0.049 per unit at 30 June 2020, is determined based on the Net Tangible Assets of the Trust at 30 June 2020.

Note 15. Related party transactions (continued)

Other related party information

Aurora Corporate

Aurora Corporate Pty Ltd (formerly Seventh Orion Pty Ltd) as Trustee for the Aurora Investments Unit Trust (Aurora Corporate) owns 100% of the ordinary shares of Aurora Funds Management Limited, being the Responsible Entity of HHY Fund.

Aurora Corporate Pty Ltd (formerly Seventh Orion Pty Ltd) is 50% owned by John Patton, the Managing Director of Aurora Funds Management Limited, with the other 50% owned by Victor Siciliano, Executive Director and Portfolio Manager.

Directorships

Mr John Patton was appointed to the Boards of the following listed entities held by other managed investment schemes also managed by the Responsible Entity:

- Mr Patton was appointed to the Board of Keybridge Capital Limited as a Non-Executive Director on 10 August 2016 and was subsequently appointed to the role of Chairman on 13 October 2016. Further:
 - Until 18 July 2019, Keybridge Capital Limited was Investment Manager of the Trust; and
 - Keybridge Capital Limited holds 25,238,986 unts (2019: 25,238,986 units) in the Trust; and
- On 21 January 2020, Mr Patton retired from his position as Director and Chairman of Keybridge Capital Limited.
- Mr Patton was appointed to the Board of Metgasco Limited as a Non-Executive Director on 19 September 2016. The Trust holds an investment in Metgasco Limited of 41,390,181 units (2019: 42,170,181 units), the fair value of which is \$1,200,315 (2019: \$1,981,999).

Aurora Funds Management Limited ("AFML") was appointed as Investment Manager of RNY Property Trust ("RNY") on 2 July 2018. Mr Victor Siciliano was appointed to the Boards of the following entities:

- · Aurora Funds Management Corp. ("AFMC")
- Aurora Asset Management Corp. ("AAMC")
- RNY Australia Operating Company LLC ("RAOC")
- RA 560 White Plains Road LLC ("RA560")
- RA 580 White Plains Road LLC ("RA580")
- RA 55 CLB LLC ("RA55CLB")
- RA 6800 Jericho Turnpike LLC ("RA6800")
- RA 6900 Jericho Turnpike LLC ("RA6900")
- RNY Australia AC Mezz Borrower LLC ("RAAMB")

RNY owns 100% of RNY Australia LPT Corp ("RALPT"), which in turn owns 75% of RAOC, which in turn owns 100% of RAAMB, which in turn owns 100% of each of RA560, RA580, RA55CLB, RA6800 and RA6900. AFMC owns the other 25% of RAOC.

AFML owns 100% of each of AFMC and AAMC.

Investments

The Trust did not hold any investments in any schemes which are also managed by the Responsible Entity.

Note 15. Related party transactions (continued)

Responsible entity's/manager's fees and other transactions

Under the terms of the Trust Constitution, the Responsible Entity is entitled to be reimbursed for expenses and costs incurred in performing its role as Responsible Entity.

The transactions during the year and amounts payable at year end between the Trust and the Responsible Entity were as follows:

	2020 \$	2019 \$
Recoverable costs of Responsible Entity for the year paid/payable by the Trust to the Responsible Entity	125,118	125,118
Recovery costs	49,428	57,433
Balance owing to the Responsible Entity at the end of the reporting period	47,064	14,294

Loans

Aurora Funds Management Limited was appointed as Investment Manager of RNY Property Trust on 2 July 2018. RNY Property Trust owns 100% of RNY Australia LPT Corp, which in turn owns 75% of RNY Australia Operating Company LLC. The Trust has advanced a loan of \$350,000 to RNY Australia Operating Company LLC at 30 June 2020. Interest is payable on this loan at 12% per annum. The loan is unsecured. For the year ended 30 June 2020 interest of \$24,683 is payable on this loan.

Note 19. Events after the reporting period

On 1 October 2020 a loan of \$780,000 was provided by the Trust to RNY Australia Operating Company LLC ("RAOC") which matures on 1 October 2023. The annual interest rate of 15% is calculated on the principal drawn down only. There is no Guarantor under the loan agreement.

On 6 October 2020 Huntley Management Limited ("Huntley"), as responsible entity for RNY, announced that:

- the Amended and Restated Senior Loan Agreement ("Loan Agreement") with its US lender, ACORE Capital ("Lender"), has been executed, and
- Huntley is finalising the documentation for its previously announced 1:1 Non-Renounceable Rights Issue, and will provide unitholders with its proposed timetable after the closure of the off-market all scrip takeover bid for RNY by Keybridge Capital Limited, which will close at 7:00pm on Monday 16 November 2020.

Other than the events mentioned above, no significant events have occurred since the end of the reporting period which would impact on the financial position of the Trust disclosed in the Statement of Financial Position as at 30 June 2020 or on the results and cash flows of the Trust for the year ended on that date.

Note 20. Commitments

There were no commitments for the expenditure as at 30 June 2020 (2019: Nil).

Note 21. Contingent assets and liabilities

There were no contingent assets and liabilities as at 30 June 2020 (2019: Nil).

Director's Declaration

The Directors of the Responsible Entity declare that:

- (a) In the directors' opinion, there are reasonable grounds to believe that the Trust will be able to pay its debts as and when they become due and payable;
- (b) In the directors' opinion, the attached financial statements are in compliance with International Financial Reporting Standards as stated in Note 2 to the financial statements;
- (c) In the directors' opinion, the attached financial statements and notes thereto are in accordance with the *Corporations Act 2001*, including compliance with accounting standards and giving a true and fair view of the financial position and performance of the Trust; and
- (d) The directors have been given the declarations of the Responsible Entity made pursuant to s295(5) of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of the directors.

On behalf of the Responsible Entity, Aurora Funds Management Limited.

Independent Auditor's Report

To the Unitholders of HHY Fund

Report on the audit of the financial report

Opinion

We have audited the financial report of HHY Fund (the Fund) and its subsidiary (the Group), which comprises the consolidated statement of financial position as at 30 June 2020, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and the Directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the Corporations Act 2001, including:

- a giving a true and fair view of the Group's financial position as at 30 June 2020 and of its performance for the year ended on that date; and
- b complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Grant Thornton Audit Pty Ltd ACN 130 913 594 a subsidiary or related entity of Grant Thornton Australia Ltd ABN 41 127 556 389

www.grantthornton.com.au

'Grant Thornton' refers to the brand under which the Grant Thornton member firms provide assurance, tax and advisory services to their clients and/or refers to one or more member firms, as the context requires. Grant Thornton Australia Ltd is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. GTIL and each member firm is a separate legal entity. Services are delivered by the member firms. GTIL does not provide services to clients. GTIL and its member firms are not agents of, and do not obligate one another and are not liable for one another's acts or omissions. In the Australian context only, the use of the term 'Grant Thornton' may refer to Grant Thornton Australia Limited ABN 41 127 556 389 and its Australian subsidiaries and related entities. GTIL is not an Australian related entity to Grant Thornton Australia Limited.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

How our audit addressed the key audit matter

Valuation and existence of financial assets and financial liabilities held at fair value through profit or loss (Note 11)

As at 30 June 2020, the Group's financial assets held at fair value through profit or loss amounted to \$2,602,076 as disclosed in Note 11.

We do not consider the fair value of the investment portfolio to be judgemental in nature as it is comprised of equity securities listed on the Australian Securities Exchange. However, due to the size of the investment portfolio, valuation and existence is considered a key audit matter. It is an area which had the greatest effect on our overall audit strategy and allocation of time and resources in planning and completing our audit.

Our procedures included, amongst others:

- Documenting and assessing the processes and control environment in place to buy and sell investments in the portfolio, including the process to value investments within the portfolio;
- Assessing the valuation of investments by comparing the valuation to publicly quoted prices;
- Agreeing the valuation of investments to other recent observable inputs in the absence of recent publicly quoted prices;
- Comparing the number of shares or units held to third party share or unit registry records;
- Performing a recalculation of the total value of investments based on the valuation performed; and
- Assessing the related disclosures in accordance with AASB 13 Fair Value Measurement.

Information other than the financial report and auditor's report thereon

The Directors of the Responsible Entity (the "Directors") are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2020, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the financial report

The Directors of the Responsible Entity of the Fund are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors responsibilities/ar1 2020.pdf. This description forms part of our auditor's report.
