

Aurora Dividend Income Trust (ADIT)

Performance ¹	1 month	3 months	FYTD
Aurora Dividend Income Trust	-1.67%	-5.24%	3.42%
Benchmark	1.31%	-1.00%	2.32%
Outperformance	-2.98%	-4.24%	1.10%

Investment Objective

The Aurora Dividend Income Trust ("Fund") seeks to provide investors with returns in excess of the S&P/ASX 200 Accumulation Index, adjusted to include the value of franking credits, over rolling 5-year periods, distribute more income and franking credits each year and to do so with less volatility.

Investment Strategy

The Fund will invest in a portfolio of companies and opportunities listed on the ASX that are expected to pay fully franked dividends while employing a risk management overlay to reduce the net exposure to equity market risk.

The Fund will invest in opportunities that are considered to offer attractive risk return characteristics with a focus on potential catalysts that seek to generate a profitable return regardless of the market direction. The Fund may opportunistically short sell securities that may to be overpriced or to reduce risk on the overall portfolio.

Fund Update

Aurora Funds Management Limited (Aurora), in its capacity as responsible entity for the Aurora Absolute Return Fund (ABW), Aurora Dividend Income Trust (ADIT), Aurora Fortitude Absolute Return Fund (AFARF), Aurora Global Income Trust (AIB), Aurora Property Buy-Write Income Trust (AUP) and HHY Fund (HHY) (collectively the Funds) provides the following update regarding the status of redemptions under section 601KA of the Corporations Act 2001 (Cth) (Corporations Act) and recent developments relating to the Funds' investments in Keybridge Capital Limited (Keybridge) and Yowie Group Ltd (Yowie).

This Fund Update is supplementary to, and should be read in conjunction with, the earlier Fund update provided on 23 August 2023.

Keybridge Capital Limited (ASX: KBC)

Aurora, in its capacity as responsible entity for ADIT, AIB and HHY holds a substantial (9.59%) interest in Keybridge. The securities of Keybridge have been suspended from trading on the ASX since 1 March 2024, and are currently valued at their last close of 4.7 cents per share, in line with the carrying value adopted by WAM Active Limited (WAM) and related entities (together holding 43.5% of Keybridge).

On 12 August 2025, Keybridge released the following statement:

“On 6 August 2025 the Australian Securities and Investments Commission (ASIC) determined that Keybridge contravened provisions of Chapter 2M of the Corporations Act 2001 (Cth) (Corporations Act) (sections 302 and 320) by failing to lodge an audited financial report and directors' report for the half-year ended 31 December 2024. ASIC also determined that Keybridge is to be excluded from relying on section 713 of the Corporations Act until 6 August 2026. Section 713 of the Corporations Act allows companies to issue a short-form transaction specific prospectus relating to “continuously quoted securities of a body”.”

The Funds/Trusts continue to adopt a carrying value of 4.7 cents per Keybridge share. Aurora will re-assess the carrying value of its investment in Keybridge based on further information being released by Keybridge regarding its financial position once the above has been completed.

Yowie Group Ltd (ASX: YOW)

Aurora, in its capacity as responsible entity for HHY, holds a 9.98% substantial holding in Yowie, whose securities have been suspended from trading on the ASX since 3 March 2025 with the investment valued at the last traded price of 1.4 cents per share.

On 13 August 2025, Yowie released the following statement:

“On 6 August 2025 the Australian Securities and Investments Commission (ASIC) determined that Yowie contravened provisions of Chapter 2M of the Corporations Act (sections 302 and 320) by failing to lodge an audited-reviewed financial report and directors' report for the half-year ended 31 December 2024. ASIC also determined that Yowie is to be excluded from relying on section 713 of the Corporations Act until 6 August 2026. Section 713 of the Corporations

Act allows companies to issue a short-form transaction specific prospectus relating to “continuously quoted securities of a body”. The effect of this determination is that Yowie must instead issue a full prospectus (instead of a short-form transaction specific prospectus) for funds raised prior to 6 August 2026. While this will not directly impact shareholders, it will increase the time and cost of producing a prospectus.”

The Fund continues to adopt a carrying value of 1.4 cents per Yowie share. Aurora will re-assess the carrying value of its investment in Yowie based on further information being released by Yowie regarding its financial position once the above has been completed.

Impact on Redemptions (s. 601KA Corporations Act)

As a result of the ASX suspensions, a significant proportion of the Funds’ assets (namely, the holdings in Keybridge and Yowie) are considered illiquid for the purposes of s.601KA of the Corporations Act. The Funds therefore do not meet the minimum liquid asset requirement prescribed by the Act and the relevant constitutions of the Funds.

Accordingly, no withdrawal requests (redemptions) can be processed at this time, pursuant to section 601KA of the Corporations Act. This statutory restriction will remain in place until the relevant securities resume trading or the Funds otherwise satisfy the liquidity requirements. Distributions may also be impacted accordingly.

Aurora will continue to monitor the situation in relation to Keybridge and Yowie, and further updates will be provided as material information arises or if the suspension status changes.

About Aurora

Aurora Funds Management Limited ("Aurora") is the Responsible Entity and Investment Manager of the Fund. Aurora is an Australian-based alternative asset manager that specialises in managing absolute-return strategies for high net worth, retail, and institutional investors.
