Investment Objective*

The Aurora Property Buy-Write Income Trust (the Trust) is an ASX listed investment trust that aims to generate income from an active strategy of selling call options over a portfolio of ASX listed Australian Real Estate Investment Trusts (AREIT).

Investment Adviser

APN Property Group Limited (APN) is a specialist Asia Pacific real estate fund manager, with a strong and consistent record of investment performance. APN Property Group Limited is listed on the Australian Securities Exchange (ASX code: APD).

APN Funds Management Limited (APN FM) is a fully owned subsidiary of APN Property Group and has been appointed as the Investment Adviser of the Aurora Property Buy-Write Income Trust. APN FM is responsible for the active management of the Trust's investment strategy.

Established in 1996, APN Property Group manages a range of property funds on behalf of corporate and public superannuation funds, high net worth and individual investors. Collectively, APN FM manages over \$1.6 billion of real estate and real estate securities.

Investment Philosophy

APN FM is an active investment manager with a concentrated focus on income and the fundamentals of real estate.

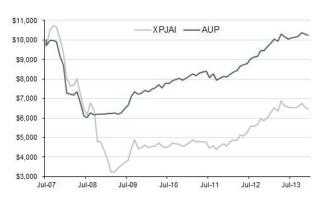

APN FM has a long held belief that investment in commercial property is primarily an investment in an income stream. Long term property leases also provide protection from the short term business cycle reflected in the market value of other asset classes. A commitment to the income benefits from property coupled with a lower level of risk (as measured by volatility) is reflected in APN FM's style of investment which focuses on well managed property assets that hold long leases to strong tenants.

Expertise

The APN FM investment team comprises a group of highly experienced real estate investment professionals who possess a deep understanding of real estate markets gained over serveral cycles.

APN FM's conservative style is underpinned by rigorous research, a proven investment process utilising a "top down" and "bottom up" approach, wide industry networks and assessment of market fundamentals. The investment team apply their judgement against the backdrop of broader domestic and global economic factors.

Investment Performance¹

Trust Valuations

Trust Size	\$12 million
Net Assets Value per Unit	\$5.2757
Exit Price Value per Unit	\$5.2651
NAV including distributions (since inception) ¹	\$9.9528

Commentary

The Aurora Property Buy-Write Trust recorded a loss of -0.52% for the month of December, outperforming the AREIT Index (as measured by the S&P/ASX 200 AREIT Accumulation Index) by 0.81%. The covered call strategy as well as conservative stock selection were the main reasons for the outperformance of the Trust for the month.

The Trust was up 5.9% for the year, outperforming the AREIT Index by 6.6% p.a. since inception. We continue to believe that the additional income generated by the covered call strategy as well as the policy of buying puts (for capital protection) will deliver long term consistent returns, which will outperform the underlying index with lower volatility.

Whilst global markets remain patchy, after a year of better economic conditions, share markets around the world have generally improved and confidence is starting to return. America is regaining some of its former strength with talks of quantitative easing coming to an end, downside risks in Europe have settled and while China's growth slowed in the second quarter of 2013, the medium-long term outlook remains relatively positive. Domestic markets are starting to show signs of a sustained recovery with solid economic fundamentals.

As owners of quality prime grade assets, the AREIT sector is showing every sign that it is set to deliver sustainable returns over the next few years, underpinned by the following key drivers;

- Occupancy continues to hold up
- · Rental growth is restrained yet still being achieved
- · Valuations to strengthen

1. This represents a cumulative return and assumes reinvestment of distributions. 2. The Trust intends to always distribute at least 2.0% of NAV, excluding any franking credits, per quarter regardless of Trust performance. This means that if the Trust has insufficient net income in a given quarter, investors may receive a partial (or full) return of capital.
