Investment Adviser

Investment Philosophy

APN FM is an active investment manager with a concentrated focus on income and the fundamentals of real estate.

APN FM has a long held belief that investment in commercial property is primarily an investment in an income stream. Long term property leases also provide protection from the short term business cycle reflected in the market value of other asset classes. A commitment to the income benefits from property coupled with a lower level of risk (as measured by volatility) is reflected in APN FM's style of investment which focuses on well managed property assets that hold long leases to strong tenants.

Expertise

The APN FM investment team comprises a group of highly experienced real estate investment professionals who possess a deep understanding of real estate markets gained over serveral cycles.

APN FM's conservative style is underpinned by rigorous research, a proven investment process utilising a "top down" and "bottom up" approach, wide industry networks and assessment of market fundamentals. The investment team apply their judgement against the backdrop of broader domestic and global economic factors.
