Investment objective

The Aurora Sandringham Dividend Income Trust (the Trust) is an ASX listed investment trust that aims to provide investors with gross income returns in excess of the cash rate while minimising capital risk.

Investment performance

Investment strategy

The Trust seeks to achieve the Investment Objective by investing in companies paying dividends and franking credits. Broadly, once a dividend has been earned by the Trust, the investment is realised thereby freeing up capital to invest in another dividend paying company. The holding period is typically more than 45 days. Investments are predominantly chosen from the 30 largest companies traded on the ASX.

The Trust is generally hedged in the order of 65% of share holdings at any given time. When opportunities exist, such as during the peak company reporting seasons of February-March and August-September, the Trust may use gearing to increase exposure to the strategy.

Investment Manager

Sandringham Capital Pty Limited is the Investment Manager of the Trust. Sandringham is a boutique investment manager specialising in structured investments. The Managing Director of Sandringham, Mr Stuart Roe, is a portfolio manager of the Trust's investment strategy.

Portfolio commentary

The S&P/ASX200 Accumulation Index experienced a much anticipated pullback in October after seven consecutive monthly rises. A steep fall in the last week of October saw it finish down 2.1% after recording new yearly highs earlier in the month. During the month the RBA raised rates for the first time since March 2008 in response to sustained data which indicated that the Australian economy was amongst the healthiest in the developed world.

With the Trust invested at 48.2% of net assets, in accordance with its investment strategy, the Trust fell 0.8% in October. The Trust's performance since inception of 9.1% per annum continues to materially outperform both equity market and cash returns of 2.8% per annum and 6.0% per annum respectively.

Notes: Since inception (17 Nov 05) the Trust has delivered an annualised return of 8.4%, assumes dividends and franking credits are reinvested. Monthly performance prior to March 06 is not shown as the Investment Strategy was refined on 28 February 2006.

1. The total 12 month return represents the compounding of each monthly return. 2. The Trust intends to always distribute at least 1.5% of NAV, excluding any franking credits, per quarter regardless of Trust performance. This means that if the Trust has insufficient net income in a given quarter, investors may receive a partial (or full) return of capital. Disclaimer: This information has been prepared by Aurora Funds Management Ltd ABN 69 092 626 885 AFSL 222110 in its capacity as Responsible Entity for the Aurora Sandringham Dividend Income Trust (ARSN 108 249 154).
