

Aurora Dividend Income Trust Performance Report - December 2016

Summary

- The Trust gained 0.4% in December, versus the Benchmark return of 2.3%.
- Aurora Funds Management head office was relocated to Melbourne.
- Victor Siciliano replaced Hugh Dive as portfolio manager during the month.

Objective

The objective of the Trust, relative to the Australian equity market, is to provide investors with:

- greater total returns over rolling 5 year periods;
- more income and franking credits each year; and
- less volatility and greater stability in distributions.

The Australian equity market is measured by the S&P/ASX 200 Accumulation Index adjusted to include franking credits.

Notes:

1. The returns describe the consolidated returns after fees of the Trust and the Aurora Sandringham Dividend Income Trust (ARSN 108 249 154, 'ASDIT' established 16 November 2005). They assume the reinvestment of distributions and franking credits. The performance references against the S&P/ASX 200 Accumulation Index plus the value of franking credits as determined by Aurora. The investment strategy of these trusts were modified on 1st March 2016.
2. The Trust intends to always distribute at least 0.5% of NAV in cash plus any available franking credits, per month regardless of performance. This means that if there is insufficient net income in a given month, investors may receive a partial (or full) return of capital.
