Significant changes in state of affairs

In the opinion of the directors, there were no significant changes in the state of affairs of the Trust that occurred during the financial half-year.

Matters subsequent to the end of the financial half-year

No matter or circumstance has arisen since 31 December 2014 that has significantly affected, or may significantly affect:

- (i) the operations of the Trust in future financial periods, or
- (ii) the results of those operations in future financial periods, or
- (iii) the state of affairs of the Trust in future financial periods.

Likely developments and expected results of operations

The Trust will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Trust and in accordance with the provisions of the Trust's Constitution.

The results of the Trust's operations will be affected by a number of factors, including the performance of investment markets in which the Trust invests. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Further information on likely developments in the operations of the Trust and the expected results of those operations have not been included in this report because the Responsible Entity believes it would be likely to result in unreasonable prejudice to the Trust.

Directors' report (continued)

Indemnity and insurance of officers

No insurance premiums are paid for out of the assets of the Trust in regards to insurance cover provided to either the officers of Aurora Funds Management Limited or the auditor of the Trust. 1 General information

Aurora Global Income Trust ("the Trust") is an Australian registered managed investment scheme under the Corporations Act 2001. The Trust commenced operations on 18 December 2007 and was admitted to the Australian Stock Exchange ("ASX") on 24 December 2007. Aurora Funds Management Limited ("AFML"), the Responsible Entity of the Trust, is incorporated and domiciled in Australia. The interim financial report of the Trust is for the six months ended 31 December 2014.

Statement of Compliance

The interim financial report is a general purpose financial report which has been prepared in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. Compliance with AASB 134 ensures compliance with international Financial Reporting Standards IAS 34 '*Interim Financial Reporting*'.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2014, together with the current product disclosure document and in accordance with the provisions of the governing documents of the Trust, and any public announcements made in respect of the Trust during the half year period in accordance with the continuous disclosure requirements of the *Corporation Act 2001*.

The interim financial report was authorised for issue by the directors of the Responsible Entity on 27 February 2015. The directors of the Responsible Entity have the power to amend and reissue the condensed financial statements.

Operation and principal Activities

The principal activities of the Trust during the financial half-year were managing its investment strategy in accordance with the provision of the Trust Constitution and the current product disclosure statement.

Registered office

The registered office of the Trust is at:

Level 4
1 Alfred Street
Sydney NSW 2000

2 Significant accounting policies

Basis of preparation

The condensed financial statements have been prepared on the basis of historical cost, except for the revaluation of non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The accounting policies applied by the Trust in the preparation of the interim financial report are consistent with those adopted and disclosed in the annual financial report as at and for the year ended 30 June 2014, except with the impact of the Standards and Interpretations described in this Note. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

(i) New and amended standards

The Trust has adopted all the new and revised Standards and interpretations issued by the Australian Accounting Standard Board (AASB) that are relevant to their operations and effective for the interim period:

AASB 1031 'Materiality'

The revised AASB 1031 is an interim standard that cross-references to other Standards and the Framework for the Preparation and Presentation of Financial Statements (issued December 2013) that contain guidance on materiality. The AASB is progressively removing references to AASB 1031 in all Standards and Interpretations, and once all these references have been removed, AASB 1031 will be withdrawn. The adoption of AASB 1031 does not have any material impact on the disclosures or the amounts recognised in the Trust's financial statements.

2 Summary of significant accounting policies (continued)

(i) New and amended standards (continued)

AASB 2012-3 'Amendments to Australian Accounting Standards – Offsetting Financial Assets and Financial Liabilities (Amendments to AASB 132)'

This standard addresses inconsistencies in current practice when applying the offsetting criteria in AASB 132 'Financial Instruments: Presentation' and clarifies the meaning of 'currently has a legally enforceable right of set-off' and 'simultaneous realisation and settlement'. As the Trust does not have any offsetting arrangements in place, the application of the amendments does not have any material impact on the financial statements.

AASB 2013-4 'Amendments to Australian Accounting Standards – Novation of Derivatives and Continuation of Hedge Accounting'

This standard amends AASB 139 'Financial Instruments: Recognition and Measurement' to permit the continuation of hedge accounting in circumstances where a derivative, which has been designated as a hedging instrument, is novated from one counterparty to a central counterparty as a consequence of laws or regulations. As the Trust does not use hedge accounting, the application of the amendments does not have any material impact on the financial statements.

AASB 2013-5 'Amendments to Australian Accounting Standards – Investment Entities'

This standard provides an exemption from consolidation of subsidiaries under AASB 10 'Consolidated Financial Statements' for entities which meet the definition of an 'investment entity', such as certain investment funds. Instead, such entities would measure their investment in a particular subsidiaries at fair value through profit or loss in accordance with AASB 9 'Financial Instruments' or AASB 139 'Financial Instruments: Recognition and Measurement'. The application of the amendments does not have any material impact on the financial statements.

AASB 2014-1 'Amendments to Australian Accounting Standards' [Part A – Annual Improvements 2010-2012 and 2011-2013 Cycles]

The Annual Improvements 2010-2012 Cycle includes a number of amendments to various AASBs. The key amendments relevant to the Trust include changes to AASB 13 – short-term receivables and payables and AASB 124 – key management personnel. The adoption of these amendments has not had a material impact on the Trust.

AASB 2014-1 'Amendments to Australian Accounting Standards' [Part C – Materiality]

This amending standard makes amendments to particular Australian Accounting Standards to delete their references to AASB 1031, which historically has been referenced in each Australian Accounting Standard. The adoption of amending standard does not have any material impact on the disclosures or the amounts recognised in the Group's condensed consolidated financial statements as this is still applicable and is not part of the Annual Improvements 2010-2012 Cycle.

(ii) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of a liability reflects its non-performance risk.

The Trust measures the fair value of an instrument using the quoted prices in an active market for that instrument. A market is considered as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

Where there is no quoted price in an active market, the Trust uses valuation techniques that maximise the use of relevant and observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all factors that market participants would take into account in pricing a transaction.

(iii) Estimates

The preparation of the interim financial report requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates.

3. Fair Value Measurement

(a) Fair Value estimation

The carrying amounts of the Trust's assets and liabilities at the end of each reporting period approximate their fair values.

Financial assets and liabilities held at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments held at fair value through profit or loss is measured at fair value with changes in their fair value recognised in the Statement of Profit or Loss and Other Comprehensive Income.

(i) Fair value in an active market

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

For the majority of its investments, the Trust relies on information provided by independent pricing services for the valuation of its investments.

The quoted market price used for financial assets held by the Trust is the current bid price; the appropriate quoted market price for financial liabilities is the current asking price. When the Trust holds derivatives with offsetting market risks, it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions and applies this bid or asking price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

(ii) Fair value in an inactive or unquoted market

Investments in other unlisted unit trusts are recorded at the redemption value per unit as reported by the investment managers of such Trusts.

The carrying value less impairment provision of other receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Trust for similar financial instruments.

(b) Fair value hierarchy

The Trust classifies fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes "observable" requires significant judgement by the Responsible Entity. The Responsible Entity considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

3. Fair Value Measurement (continued)

(b) Fair value hierarchy (continued)

The following table presents the Trust's financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy as at 31 December 2014 and 30 June 2014.

Total	-	33	-	33

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include the over-the-counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

There were no transfers between levels 1, 2 and 3 during the half year.

3. Fair Value Measurement (continued)

(b) Fair value hierarchy (continued)

The Trust's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

Directors' declaration

In the opinion of the directors of the Responsible Entity:

- (a) the financial statements and notes set out on pages 7 to 20 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the Trust's financial position as at 31 December 2014 and of its performance for the financial half-year ended on that date; and
- (b) there are reasonable grounds to believe that the Trust will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the directors.

Independent Auditor's Review Report to the Unitholders of Aurora Global Income Trust

We have reviewed the accompanying half-year financial report of Aurora Global Income Trust ("the Trust"), which comprises the condensed statement of financial position as at 31 December 2014, and the condensed statement of profit or loss and other comprehensive income, the condensed statement of changes in equity and the condensed statement of cash flows for the half-year ended on that date, selected explanatory notes and, the directors' declaration as set out on pages 7 to 21.

Directors' Responsibility for the Half-Year Financial Report

The directors of the Responsible Entity, Aurora Funds Management Limited, are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Trust's financial position as at 31 December 2014 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Trust, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Independence Declaration

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Responsible Entity, would be in the same terms if given to the directors as at the time of this auditor's review report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Trust is not in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Trust's financial position as at 31 December 2014 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
