Investment Objective

The Aurora Property Buy-Write Income Trust (Fund) seeks to provide investors with capital growth and income through owning a portfolio of ASX-listed property securities, and actively selling call options over the portfolio.

Investment Strategy

The Fund seeks to capture returns from investing in a portfolio of Australian ASX listed property securities. Income generated may be supplemented by implementing a call option selling ('writing') strategy. Where a call option strategy is implemented, a proportion of the income received from selling the call options may be used to purchase put options to reduce capital risk.

The Fund will invest in opportunities that are considered to offer attractive risk return characteristics with a focus on potential catalysts that seek to generate a profitable return regardless of the market direction.
